CELLULAR TELECOMMUNICATIONS INDUSTRY ASSOCIATION'S PETITION FOR
RULE MAKING, RM-8577

Honorable Chair and Commission Members:

We wish the Federal Communications Commission to be aware that the City of Fontana, California, strongly opposes any changes in Federal law or Federal Communications Commission regulations or rulings that would eliminate or curtail our ability to review proposed new cellular telecommunication facility installations in the City of Fontana for compatibility with our land use regulations.

Thank you for your earnest and sincere attention to this matter.

Sincerely,

David R. Eshleman

Re: Rule No. 8577 Cellular Tower Zoning Preemption

Dear Mr. Billings:

El Segundo City Staff is unable to attend the Cellular Siting Workshop on April 28, 1995 in San Diego. Yet, we still maintain our opposition to the proposal initiated by the cellular telephone industry to preempt local governments from enforcing zoning regulations regarding location and construction of new towers for wireless communication facilities. Attached is a copy of the letter dated March 13, 1995 which was previously sent to you. Please make sure that these letters are part of your public records.

Sincerely,

Hyrum B. Fedje

Re: Rule No. 8577 Cellular Tower Zoning Preemption

Dear Mr. Canton:

The City of El Segundo opposes the proposal initiated by the cellular telephone industry to preempt local governments from enforcing zoning and other similar regulations with respect to locating and constructing new towers for wireless communications facilities. We feel local control should be maintained within the jurisdictions, not miles away in Washington.

Sincerely,

H. B. Fedje FOR

OFFICE OF SECRETARY

Dear Chairman Hundt:

Thank you for taking time out of your busy schedule to meet with me and other representatives of the Rural Cellular Association (RCA) on March 29, 1995 while we were in Washington, DC.

Wireless telecommunications issues will be very demanding and challenging during the coming months. We would appreciate your keeping in mind the issues of the small rural cellular companies in your discussions and deliberation of proposed regulations. As we discussed with you, we believe that no mandates are required in the areas of E911, equal access, interconnection, or cell site zoning. The cellular industry has resolved most issues of importance by its own initiative and will continue to do so. We really appreciated the courteous attention and comments of Ms. Ruth Milkman.

Again, thank you for your time and thank you for all of your hard work! Please call if you have any questions, or if we can assist you in any way.

Sincerely,

XIT CELLULAR

Re: RM-8577 Petition to FCC by Cellular Telecommunications
Industry.

Dear Mr. Hundt:

The Board of Selectman, for the Town of New Ashford, of the Commonwealth of Massachusetts, respectfully request that the regulation of cellular telephone towers remain at the local control boards level.

We feel that the local governing boards that regulate the locations of cellular towers are more receptive to the needs of the citizens of the community for which they serve.

We request that further consideration to preempt the local land use regulations governing the location of telephone towers not be given further consideration and that no rules be drafted on this subject.

Sincerely,

Maureen Jennings

SUBJECT: DOCKET NO. RM-8577 - FOR INCLUSION IN THE PUBLIC RECORD
PROPOSED TRANSFER OF AUTHORITY TO FCC FOR SITING AND
RELOCATING CELLULAR AND OTHER COMMUNICATION TOWERS

TO WHOM IT MAY CONCERN:

On behalf of the Tiburon Town council and community, we want to state our opposition to the transfer of decision-making authority to the FCC for the siting and relocation of cellular and other communications towers.

We feel that the best control is still local control.

Very truly yours,

Andrew Thompson
